EDUCATION

CU Boulder - Computer Science (BS), Data Science and Business Minors

May 2028

TECHNICAL SKILLS

Languages: Python, SQL, Java, C, C++, C#, JavaScript/HTML/CSS

Resources: Github, BitBucket, AWS, [Node.js](#), React

RELEVANT COURSEWORK

Fall 2026: Operating Systems, Object Oriented Programming, Introduction to AI, Quantitative Reasoning

Spring 2026: Algorithms, Database Systems, Linear Algebra, Data Science & Statistics

Fall 2025: Discrete Structures, Software Development, Computer Systems, Logic

Spring 2025: Calculus II for Engineers, Physics I, Data Structures

Fall 2024: Calculus I for Engineers, Introduction to Programming, Computer Science as a Field

WORK EXPERIENCE

Software Engineering Intern, Nolodex

Summer 2026

- Data scraping & cleaning: Built a Python-based tool to scrape and process data from sources like Google Places and various directories, turning raw data usable for business applications.
- Software testing: Worked on testing to ensure the product was reliable and ready for users.
- Product development: Conducted market research, SWOT analysis, and created concepts (logos, wireframes, etc.) to shape product direction.

Algorithms Course Assistant - CU Boulder Department of Computer Science

Fall 2026-Present

- Hold office hours to explain concepts and answer student questions.
- Complete coursework to assess fairness and difficulty before assignment distribution.

SOFTWARE PROJECTS

Data Scraper: built a tool in python to grab lists of people from various websites and search for their emails.

RepQuest: a fitness tracker I worked on as a team in 2025, increasing my proficiency in SQL, CSS, Javascript, and HTML. I created the database, made working achievements, and ran the team as project manager.

Crash: a computer game I designed in 2024 using C# and Unity. I learned about optimization and UI design.

Portfolio Website: a website programmed in HTML, CSS, JavaScript, and Bootstrap to showcase my projects.

LEADERSHIP

Director of New Member Education, Philanthropy, and Sergeant of Arms at Phi Sigma Rho

Fall 2024-2025

- Earned the 2024-2025 Philanthropy award. Raised funds for the Leukemia and Lymphoma Society by coordinating events with external offices. Examples include bake sales, charitable walks, and restaurant fundraisers.
- Use Robert's Rules of Order to ensure decorum in chapter and disciplinary meetings.
- Plan sisterhood, philanthropy, and retreat events for new members as they transition into the sorority.
- Teach a weekly class about the history and structure of the sorority, serving as a mentor and leader for younger members. Assist them in their transition into college. Encourage community and camaraderie.
- Collaborate with other directors. Serve as a liaison between the executive board and new members.

Captain, CU Club Field Hockey

Fall 2024-Present

- Coordinate fundraising with CU basketball and football events.
- Create and post for @cufieldhockey on instagram to promote our team.
- Work under pressure, as the line of defense. Keep a level head and improve upon previous plays.
- Serve as a leader among the defensive line with an emphasis on short, but effective communication.
- In high school placed 5th nationally in indoor and 10th nationally in outdoor, Centercourt Club.

Field Hockey Coach - Colorado Bears

Fall 2025-Present

- Coach elementary and middle school goalkeepers.
